What element(s) did you find most valuable about Richard Kolenda's teaching?

Comments

Great use of teaching tools to relay required information, Interactive discussions.

I think the teaching was very clear and interesting to read.

The short class lengths

Dr. Kolenda consistently responded to emails, and answered students problems in a timely manner when asked. He also taught a difficult subject well, especially considering the nature of the topic.

I found the preparation of the weekly reflections very valuable

I find that Professor Kolenda is an understanding and reasonable professor. He knows the material well.

What element(s) did you find least valuable about Richard Kolenda's teaching?

I wish more points on the slides were covered, that there weren't weeks that we skipped classes

None

I found that if he allowed for more time on the objective part of the midterm, we only got an hour. I have anxiety when it comes to taking timed tests online, I would either be too busy focusing on the time and whether or not my laptop has wifi; I did not think about all the information I could have put down on that specific question, in order to give myself the best score. I felt that if all of us had 90 minutes, it would have made me feel better.

Do you have anything else you wish to write regarding any of the statements in the previous sections? If so please provide your comments.

I believe that on top of weekly reading memos, a 10 min quiz to recap on the previous lesson will help solidify the knowledge for everyone e.g multiple choice questions. It will also make the course more interactive and allow everyone to participate in responding.

The reception to questions surrounding class assignments was very helpful

Professor Kolenda was very available, supportive and transparent during what has been a very stressful semester, which is very commendable.

What element(s) did you find most valuable about this course?

Comments

The most valuable elements I found about this course is the part where it addresses topic such as understanding the dynamic context of public organization including analyzing its environment; understanding its people their motivation as well as the motivation theory and their effective application according to organizational goals, values, and context. It was also interesting to understand the sources of political authority and influence of institutions,entities, and actors in the political system.

Learning about the theories in the early 1960's because so much is different today

The textbook was very helpful

I find that Professor Kolenda is an understanding and reasonable professor. He knows the material well.
